**DESTINY**

Whom shall I be?

Whom shall I be?

I will be me

I will be me

For me there is a destiny

To be me

To be me

To be me

To be me

For you there is a destiny too

To be you

To be you

To be you

To be you.

## SUN AND MOON

The sun shines by day  
To give us the best  
The moon shines at night  
To give us rest  
Life is good  
Life is grand  
Do your best  
With the cards in your hand.

## WE MUST CHOOSE

We must choose  
Make a choice  
Follow our own  
Inner voice  
Take from within us  
And create  
Create ourselves  
Create our fate  
Take what's handed us  
To keep or throw away  
Live our lives  
Every day  
What kind of person  
Do we want to be  
And what is our responsibility  
What do we owe ourselves  
And those around us  
Think. Think.  
Don't let it confound us  
And we must choose  
Make a choice  
And follow our own  
Inner voice.

## JEAN THE GHASTLY GHOST

My name is Jean the Ghastly Ghost  
What life is there for me?  
Your life is what you make it  
You shall see, you shall see

I have no one to count on  
No one is there for me  
Yes you have yourself to count on  
And yourself is what you'll be

Everyone jumps their hurdles  
Yours are just more high  
So do it with a smile  
And just forget the sigh

Your accomplishments will be  
Much greater, then, it's true  
And you will stand straight and tall  
And happy to be you

Then Jean the Ghastly Ghost  
My name will be no more  
Now it's Jean the Tough and Gentle  
I'm Tough and Gentle, that's for sure

My name is Jean the Tough and Gentle  
What life is there for me?  
My life as I create it  
That's how it is and how it will be.

## LOVE

You used to think you're bad all the time  
You used to think you're no good  
You used to think you've no brains in your head  
You wish you could  
You wish you would

Now you see how good you are  
And everyone loves you too  
Everything you've wanted to do  
You're beginning to see you can do

Be not like the others  
Be to yourself true  
You don't need to be like the others  
You can do well with what you can do

Live a life of love  
And friends you'll have who are true  
It's fun to be like yourself  
It's fun to be like you.

## BLESSINGS

Why were they always yelling at me?  
I still hear it in my sleep  
Do this, do that, be this, be that  
And you are judged by the company you keep

Why were they always yelling at me?  
Why was I always wrong?  
I hear it over and over again  
It's a song, it's a song, it's a song, it's a song

So leave the room and change the tune  
Change the tune and the words  
Leave your troubles behind you  
And fly away from them like the birds

Fly by the beautiful sunrise  
Fly by the calm blue sea  
Fly by the soft sweet breezes  
Fly by each lovely tree

Now you shall hear angels whisper  
Whisper of peace and love  
Whisper you're one of God's children  
With the blessings from above.

## LET US WORK TOGETHER

I work hard to pave my way  
Through the bushes and trees  
Where am I going? Not quite sure  
But I hope myself to please

I'm beginning to like who I am  
And I'm beginning to like you too  
We have a lot in common  
You and I, I and you

So let us work together  
And pave a path for two  
We'll sing a song together  
And to each other we'll be true.

## CONFUSED

Sometimes I get confused

Who am I?

Who shall I be?

Just rest a while

Have faith in God

God shall lead you

And you shall see.

## BLUES

Blues, blues, I got the blues  
It isn't easy and this I didn't choose  
But God is with me and God does say  
Believe and have faith and the blues will go away

It may take time and I must be strong  
And do what is right and good all along  
To do what is right and good for you  
To do what is right and good for me too

God will be my own best friend  
And give me the courage to achieve this end  
Then the sun will shine on each new day  
And I will laugh and I will play

Blues, blues, no more blues  
Now I'm living the life I choose  
I have faith and I am strong  
And God has been with me all along.

## BE YOU

Things are not as dreary as they seem  
When life is rough just dream, dream, dream  
And when the future seems like the past  
Things may change; you'll be free at last  
And when it seems this is not so  
It's time for you to go, go, go  
It's time to make the change yourself  
Instead of sitting on a shelf  
It may be hard, it may be rough  
But it pays to be tough, tough, tough  
Be tough and gentle; that's the clue  
And forever be you, you, you.

**MOVE ON**

The past is dead

Gone. Gone.

Learn what you can from it

Then move on

Move on. Move on.

Move on. Move on.

Move on. Move on.

Move on. Move on.

## HEAVENLY SPIRIT

Heavenly Spirit

Walk by my side

Help me be strong

For in You I abide

Give me the hope

That sets me free

And banish all fears

And doubts within me

Help keep me calm

Help me understand

That You're always beside me

Holding my hand

Whenever I need You

You always will be

With me forever

Forever with me.

## MY FRIEND, GOD

God is my Friend  
My Companion, my Light  
With me by day  
With me by night

I feel God within me  
And also around me  
Guiding my steps  
In all that surround me

I'll be true to my Friend  
As my Friend is to me  
Now and forever  
Throughout eternity.
